SUMMARY	Applied Scientist with deep technical expertise in computer vision and machine learning, building capabilities in AI governance and responsible AI project management. Certified in AI Governance (AIGP), Managing AI (PMI-CPMAI), and Green Project Management (PMI-GPM-b), working with regulatory compliance frameworks at RISE Research Institute and developing AI systems at Karolinska Institutet. Two-time ERCIM Postdoctoral Fellow with experience spanning video quality assessment, medical imaging, image quality evaluation, and data analytics. Applying technical foundation across multiple domains while developing expertise in AI safety, regulatory requirements, and project management for AI deployment.	
TECHNICAL FOUNDATION	Core Expertise: Computer Vision, Machine Learning, Deep Learning, Image Quality Assessment Programming: Python, Rust, C, C++, Java, Shell Scripting ML Frameworks: PyTorch, TensorFlow, scikit-learn, OpenCV, Hugging face, openMMLab Data Analytics: pandas, numpy, Matplotlib, R Emerging Focus: AI Governance, AI Project Management, Regulatory Compliance	
CERTIFICATIONS	Governance & PM: AIGP (IAPP) · Risk & AI (GARP) · PMI-CPMAI · PMI-GPM-b ISO/TÜV SÜD: ISO/IEC 42001 Lead Implementer · ISO/IEC 27001 Lead Implementer · ISO 31000 Risk Management	
WORK EXPERIENCE	RISE- Research Institute of Sweden AB, Stockholm Research and Development Engineer	November 2024 - Present - Developing and evaluating AI use cases across healthcare and other regulated sectors, collaborating with stakeholders to identify practical applications and implementation challenges. - Working with regulatory compliance frameworks including AI Act and medical device regulations (MDR/IVDR) to ensure data and AI models meet legal and safety requirements. - Contributing to the EU TEF Health project, focusing on establishing data quality criteria and standards for healthcare AI applications across European healthcare systems. Karolinska Institutet, Stockholm Researcher
	- Building and training machine learning models for clinical applications, with focus on preparing models for eventual deployment in hospital settings. - Collaborating with clinical researchers to align model development with real-world healthcare workflows and requirements. Fraunhofer Institute for Telecommunications - Heinrich-Hertz-Institut, Berlin ERCIM Post Doctoral Fellow Video Coding Systems Group	August 2023 - July 2024 - Conducted quality assessment analysis for VVC (Versatile Video Coding), the next-generation video codec, evaluating performance across diverse encoding scenarios and content types. - Conducted benchmarking using standard video quality metrics (PSNR, MS-SSIM, VMAF).

Lulea University of Technology, Lulea, Sweden
Postdoctoral Researcher EISLAB- Machine Learning, Lulea June 2021 - June 2023

- Secured funding for GPU clusters as a co-applicant, demonstrating project management and stakeholder engagement capabilities.
- Collaborated with international research partners on ML and computer vision projects, developing skills in cross-functional technical communication and standards alignment.

Norwegian University of Science and Technology, Gjøvik, Norway
ERCIM Post Doctoral Fellow Colorlab, Gjøvik March 2019 - February 2020

- Conducted foundational research on deep learning robustness, evaluating the impact of color distortions on neural network performance and reliability.
- Created specialized datasets to evaluate robustness and explore AI safety implications in deep learning systems.

Indian Institute of Technology, Roorkee
Post Doctoral Fellow, Computer Science Department August 2017 - February 2019

- Conducted research across multiple ML domains including generative models (GANs), zero-shot learning, recommender systems, and biometrics, resulting in peer-reviewed publications.

EARLY INDUSTRY EXPERIENCE
Computer Sciences Corporation, Chennai - Associate Software Engineer, PayPal India Sep 2009 - Jul 2010
IBM India Pvt. Ltd., Bangalore - Intern, India Software Laboratory Jan 2009 - Jun 2009

EDUCATION
Indian Institute of Information Technology Design & Manufacturing Kancheepuram, Chennai, India
Ph.D., Computer Science

International Institute of Information Technology, Bangalore, Karnataka.
M.Tech., Information Technology, (secured 3.16/4 CGPA)

Sikkim Manipal Institute of Technology, Sikkim.
B.Tech., Electronics and Communication Engineering, (secured 78.66 %)

SELECTED ACHIEVEMENTS
First Prize, Walking on Thin Clouds Hackathon - AI Sweden (2023)
First Prize, Brain4io Data Analysis Hackathon - g.tec, Austria (2023)

INVITED TALKS
Topic: **Application of Möbius Transformations in Robust Machine Learning** - Vellore Institute of Technology, Bhopal on 12th February 2026
Topic: **Robustness of Convolutional Neural Networks**- Delivered at BMS Institute of Technology and Management, Bangalore on 14th January 2022
Topic: **Image Quality Assessment Techniques**- Delivered at Indian Institute of Technology Roorkee, on 9th March 2018
