

KANJAR DE

AI Governance & Responsible AI | Applied ML Researcher | Trustworthy AI

Stockholm, Sweden • +46 730 538 228 • kanjar.de@gmail.com • linkedin.com/in/kanjar-de • kanlions.github.io

PROFILE

Applied AI professional working at the intersection of machine learning and AI governance. Six years of hands-on research experience in computer vision, model robustness, and generative models, combined with formal credentials in AI governance, risk management, and information security (AIGP, ISO/IEC 42001, ISO/IEC 27001). Currently carry out EU AI Act compliance assessments for high-risk AI systems in regulated sectors. Looking for roles in responsible AI or applied research where regulatory rigor and technical depth meet.

CERTIFICATIONS

- **AI Governance & Risk: AI Governance Professional (AIGP, IAPP); GARP Risk and AI; PMI Certified in Managing AI (CPMAI); PMI Green Project Management (GPM-b)**
- **Standards (TÜV SÜD): ISO/IEC 42001 Lead Implementer; ISO/IEC 27001 Lead Implementer; ISO 31000 Risk Management**

EXPERIENCE

R&D Engineer — RISE Research Institutes of Sweden, Stockholm Nov 2024 – Present

- Carry out AI governance assessments for regulated-sector use cases by applying the EU AI Act to data, model development, and deployment requirements; produce compliance gap analyses for high-risk AI systems and translate findings into roadmaps for industry and research stakeholders.
- Conduct stakeholder interviews and requirements analysis to scope AI applications, evaluate technical feasibility, and align objectives with regulatory needs.
- Contribute to the EU TEF-Health project on data quality criteria and harmonized AI standards across European partners.

Researcher — Karolinska Institutet, Stockholm Nov 2024 – Present

- Develop ML models for clinical applications with explicit attention to regulatory pathway, documentation, and integration into real-world workflows.

Researcher — Fraunhofer HHI, Berlin (Video Coding Systems Group) Aug 2023 – Jul 2024

- Conducted standards-aligned quality assessment and benchmarking for VVC (Versatile Video Coding) using PSNR, MS-SSIM, and VMAF; funded by the competitive ERCIM Alain Bensoussan International Fellowship.

Researcher — Luleå University of Technology (EISLAB Machine Learning) Jun 2021 – Jun 2023

- Co-authored a successful funding proposal for shared GPU infrastructure; partnered with a Swedish SME to produce a UAV imagery dataset published at a CVPR workshop; supported the Brain Analysis Group with research and dataset creation.

Researcher — Norwegian University of Science and Technology, Gjøvik (Colorlab) Mar 2019 – Feb 2020

- Investigated deep learning robustness — quantified how color distortions affect neural network reliability; built specialized datasets for AI robustness assessment; funded by the competitive ERCIM Alain Bensoussan International Fellowship.

Postdoctoral Fellow — Indian Institute of Technology, Roorkee (Computer Science) Aug 2017 – Feb 2019

- Conducted independent research across generative models, zero-shot learning, recommender systems, and biometrics, resulting in peer-reviewed publications.

TECHNICAL SKILLS

- **GRC:** EU AI Act, ISO/IEC 42001, ISO/IEC 27001, ISO 31000, NIST AI RMF, AI risk assessment, data quality
- **Programming:** Python, Rust, C, C++, Java, SQL, Shell
- **ML & Data:** PyTorch, TensorFlow, scikit-learn, Hugging Face, OpenCV, OpenMMLab, pandas, NumPy, R
- **Modeling & Domains:** LLMs, vision-language models, generative models, computer vision, model robustness

EDUCATION

Ph.D., Computer Science — Indian Institute of Information Technology, Design and Manufacturing, Kancheepuram

M.Tech., Information Technology — International Institute of Information Technology, Bangalore

B.Tech., Electronics and Communication Engineering — Sikkim Manipal Institute of Technology, Majitar

Awards & Recognition: First Prize — Walking on Thin Clouds Hackathon (AI Sweden, 2023) and Brain4io Data Analysis Hackathon (g.tec, Austria, 2023); ERCIM Alain Bensoussan Fellowship (x2); Invited talks at VIT Bhopal (2026), BMS Institute Bangalore (2022), IIT Roorkee (2018).
